- Add Video & Audio questions
- Enable timed questions
- Options for allowing retakes
- Include in any Eploy Discover form
- Flexible grading & scoring options
- Secure access for hiring managers
- Seamless candidate experience

Simple, effective, video and audio interviews, wherever you need them.

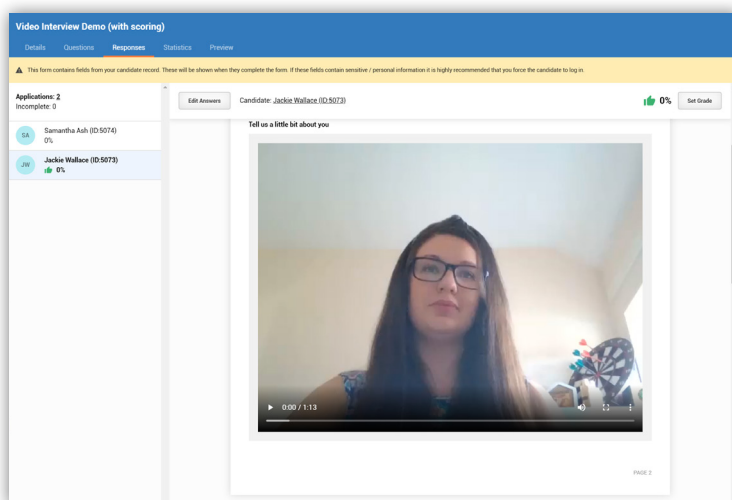

Using Video and Audio as interviewing tools are great ways to break down the barriers of engaging with talent, at scale. Not only can it let candidates express their personality and creativity but also your recruitment team will get a more rounded, dynamic overview - something a CV alone cannot deliver.

With Eploy's Video Interviewing toolkit, you can include both Video and Audio questions at any stage of your recruitment process.

With flexible options to ensure a fair process, you can include time limits, numbers of 'takes' or a simple file upload. Video interviewing can also improve the consistency of your process since each candidate is asked the same questions, levelling the decision-making playing field.

As well as supporting video interviews you can have audio-only responses too. As it's seamlessly integrated into your careers site and process, you'll provide a consistent, fully branded, candidate experience too.

When recruiting for volume requirements, Eploy Video Interviewing becomes an essential tool. Not only do you give the candidate control over the process - enabling them to answer the questions at a time convenient to them, but also your hiring managers and recruiters can review the interviews and collaborate within Eploy to identify the best talent.

Easily review and score candidate responses to your video and audio interview questions

TERMS OF SERVICE

Eploy Video Interviewing is an add-on feature for Eploy's application & feedback forms builder - Eploy Discover, and is not available as a standalone service. Pricing is based on the number of applications that include Video questions. Please refer to the Eploy VI Pricing Plan for volume discount options. Candidate videos are stored for 6 months and then deleted. For existing customers, please contact your Eploy Account Manager to discuss compatibility with your current careers site & candidate portal configuration.

Video & Audio Interviews

- Include Video & audio questions in your application and feedback forms.
- Add options, including allowing re-takes, thinking time, and length of answers.
- Assist candidates, include help text and guidance for each question.
- Grade candidate responses with Eploy Discover's flexible scoring options.
- Review candidates within the Core System and Hiring Manager Portal.
- Store video responses within Eploy, with automatic deletion for GDPR.
- Supports desktop and mobile devices (See below for specific OS & Browser version compatibility)

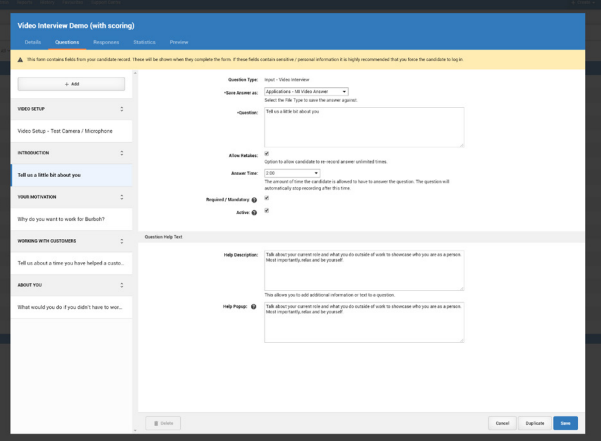

Eploy Discover Forms Support

Eploy Video Interview questions can be included within application and feedback forms created with Eploy Discover.

As a fully integrated add-on for Eploy, your candidates will receive a seamless experience, no need for any additional login credentials, everything can be accessed through their careers site candidate account.

Please contact your Eploy Account Manager to discuss compatibility with your current careers site and candidate portal configuration.

Desktop Support

OS	Microsoft					Apple	
Browser	Chrome	Edge	Firefox	Internet Explorer	Opera	Chrome	Safari
	47+	79+	25+	File Uploader*	18+	47+	File Uploader* (Experimental Feature)
Version							

Mobile Support

OS	Android				iOS	
Browser	Chrome	Firefox	Opera	Samsung Internet	Chrome	Safari
	47+	68.5+	56.1 (Audio interview not supported)	5+	File Uploader*	File Uploader* (Experimental Feature)
Version						

*File Uploader: If the browser or browser version is not supported then the candidate is required to upload a video/ audio file in place of capturing live video, similarly if the candidate's device is not capable of capturing live video. However, certain mobile devices will offer the user the option of capturing a video directly via the file uploader function. When using the File uploader method the following functionality will not be available: 1) Thinking Time is disregarded 2) The length of video uploaded is unrestricted, however it will be trimmed automatically to the maximum length upon save.
