## The better way to work with your preferred supplier list

Eploy's Agency Portal helps in-house recruiters stay in control of their preferred supplier list (PSL) of approved agencies for both contingent and direct recruitment.

### Distribute vacancies to the right agencies

With Eploy you can create vacancy requisitions that pass through your approvals process and then distribute them to the right agencies on your preferred supplier list. Meaning you get full visibility and control of your agency spend and service levels.

### Simple, intuitive agency collaboration

Eploy's Agency Portal is designed for rapid adoption. Your agency suppliers can login, see the vacancies they have been assigned, then submit their suitable candidates.

### Better feedback drives candidate quality

Submitted candidates are automatically available for you and your hiring managers to review, within Eploy ATS and your Eploy Hiring Manager Portal. It's quick and easy to provide feedback to your PSL vendors and everyone is kept 'in the loop' with vacancy status reports and notifications.

Faster, Smarter  
Recruitment Software

All of your agencies... managed online.

## EMPLOY AGENCY PORTAL

### KEY BENEFITS

#### Vendor Management

Track all of your agency costs and enforce PSL usage

#### Candidate Quality

Improve the quality of candidates through better pre-screening
